

Practical Test Record Sheet

Unit 2: Principles of Pool Water Testing

Learning Outcome 1

The learner is required to complete the following pool tests and record the results (for the purposes of assessment the learner does not have to wait for the colour to fully develop when performing the total chlorine test).

pH	Free Chlorine	Total Chlorine

After adding the DPD 3 tablet to the free chlorine sample how long should you wait for the colour to fully develop?

--

From the results calculate the combined chlorine.

--

Confirmation of Completion of Practical Pool Water Test

Water testing practical completed, and the learner has been assessed as:
